

Dikandu Michael

Software Engineer

Male, Lagos, Nigeria | (+234) 7066993421 [Linkedin](#) || [Portfolio](#) || [Gmail](#) || [Github](#)

PROFILE

Experienced Software engineer with 3+ years of developing innovative software applications that expedite the efficiency and effectiveness of organizational success. Has a firm background in design patterns and data structures, a problem solver who readily adapts to change. Works with a variety of languages, platforms, libraries, and frameworks. Proficient in **Java, Dart, JavaScript, Node.js, Python** and **TypeScript**, with expertise in **Spring Boot, Flutter, React, Golang, Flask, Django, Dotnet** and **NestJs**. Skilled in **RESTful API development, database management, cloud integrations**, and security best practices (**JWT authentication, CORS handling, Spring Security**).

SKILLS

Programming Languages: Java, JavaScript, Dart, Python, TypeScript, HTML

Frameworks & Libraries: Spring Boot, Flutter, React, Next.js, NestJS, Tailwind CSS, Flask, Node.js, Django.

Databases: MySQL, PostgreSQL, MongoDB

Tools & Technologies: Git, GitHub, Postman, Cloudinary, Firebase

Testing & Security: JUnit, Pytest, Jest, JWT authentication, Spring Security

Soft Skills: Communication, Teamwork, Time Management, Design Thinking

EXPERIENCE

Semicolon Lagos, Nigeria (2022 - 2022): As a Backend Engineer(Intern), I

- Designed and implemented secure RESTful APIs for core wallet functionalities including user onboarding, KYC integration, balance management, fund transfers, transaction history, and notifications.
- Integrated third-party services such as **payment gateways (e.g., Paystack)**, SMS/email providers, and blockchain APIs for tokenized wallet support.
- Built secure **authentication and authorization** flows using **JWT, OAuth2**, and implemented **role-based access control (RBAC)**.
STACK: JAVA, POSTGRESQL, KEYCLOAK, POSTMAN, e.t.c.

Acletis ltd Lagos, Nigeria (2022 - 2023): As a Full Stack Developer, I

- Designed and developed the backend architecture for a **loan management and reporting application**, handling loan origination, repayment tracking, borrower profiling, and credit scoring.
- Built a **modular reporting interface** that allowed dynamic database connections and generated customizable reports based on user-defined filters, time ranges, and report

types (PDF, CSV, Excel).

- Developed a responsive and intuitive **frontend interface** that allowed users to connect to databases, configure parameters, and **generate dynamic reports**.
- Utilized React (Next js) with **Tailwind** CSS to deliver a clean, professional UI.
STACK: DOTNET, AZURE, SWAGGER, REACT, NEXTJS, TYPESCRIPT, KAFKA, TAILWIND CSS.

IETECH Lagos, Nigeria (2023 - 2025): As a Full stack Developer, i

- Designed and implemented RESTful APIs using **Dotnet**, allowing seamless integration with frontend clients and third-party services.
- Collaborated closely with frontend developers and UI/UX designers to ensure smooth API consumption and an intuitive user experience.
- Used **Azure** for secure data storage and **Redis** for caching frequent queries, improving performance by 30%.
- Built and maintained user interfaces for the bank's internet banking platform using **React.js**, improving overall user experience and accessibility.
- Developed secure and responsive components for key banking features such as **account dashboard, transaction history, fund transfers, bill payments, and loan application**.
STACK: DOTNET, AZURE, SWAGGER, REACT, NEXTJS, TYPESCRIPT, KAFKA, e.t.c.

EDUCATION

Semicolon Africa
Diploma in Software Engineering

Lagos, Nigeria
Feb 2024 -Feb 2025

CERTIFICATES

Entrepreneurship
Henley Business School Certificate of participation
